

Outdoor Kitchen Planning Checklist

First take a look at the Sample Kitchen Book with your customer. They may be able to choose a kitchen directly from there, or make slight modifications to create their perfect kitchen. The book gets them thinking about what they might want to include.

LOCATION

Describe the space where the outdoor kitchen will go. Are there any space constraints such as posts, vents, garden beds, etc? Is there an ideal size in the mind for the kitchen? If desired, draw a sketch of the kitchen below.

COMPONENTS

Decide which components of the following you would like to include in your kitchen. Then decide size and quality. Quality can vastly affect the overall price of your kitchen. Add make/model/ size if you have determined them.
